

AYUSH DWIVEDI

Software Engineer | Web Developer | Python & Automation | QA & Testing | Cybersecurity | CEH Certified
+91 7860029305 · Kanpur, UP, India · dwivediayush503@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

B. Tech Computer Science student with hands-on experience in full-stack web development, Python programming, software testing, IT operations, Linux systems administration, and cybersecurity. Certified Ethical Hacker (CEH) with practical exposure to REST API development, test case design, bug reporting, network security, and research. Proficient in React.js, Node.js, Python, SQL, Git, HTML/CSS, Bash, and Agile workflows. Active open-source contributor with published projects on GitHub. Seeking internship opportunities in web development, software engineering, QA/testing, IT support, or research roles.

TECHNICAL SKILLS

Languages & Scripting: Python, JavaScript, SQL, Bash, C++

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Responsive Design

Testing & QA: Manual Testing, Test Case Design, Bug Reporting, API Testing (Postman), Functional & Regression Testing, Debugging, Unit Testing

Tools & Platforms: Git, GitHub, Linux (Ubuntu/Kali), Postman, VS Code, Agile/Scrum, SDLC

Cybersecurity: Network Security, VAPT, Ethical Hacking, Malware Analysis, Firewall Config, OWASP Top 10, Wireshark, Nmap, Burp Suite, Kali Linux

Research & Core CS: Data Structures & Algorithms, OS, DBMS, Computer Networks, OOP, Technical Documentation, Research Writing

INTERNSHIP EXPERIENCE

Full-Stack Developer Intern | Webstack Academy (Remote)

Mar – Apr 2026

- Designed and developed responsive full-stack web applications using React.js, Node.js, and MongoDB; integrated REST APIs, JWT authentication, and database connectivity following complete SDLC and Agile practices.
- Performed manual testing, functional validation, and bug reporting across frontend and backend components prior to each deployment cycle.

Python Developer Intern | Cognifyz Technologies (Remote)

Jan – Feb 2026

- Built Python automation scripts and backend utilities for data processing and task automation; applied debugging, code review, and optimization techniques using Git version control in an Agile remote team.
- Wrote unit tests and validated outputs against expected results, strengthening software quality assurance practices.

IT Intern | Honda Cars India Limited, Greater Noida

Jun – Jul 2025

- Supported enterprise IT operations including system performance monitoring, anomaly detection, hardware/software troubleshooting, and user support, documented incident logs and infrastructure configurations.

IT Intern | Eduversity (Remote)

Oct – Nov 2023

- Performed traffic analysis and vulnerability assessments in simulated network environments; produced structured technical security reports aligned with SOC analyst and IT support methodologies.

PROJECTS

EthHack AI — Node.js, Express.js, React.js, MongoDB, OpenAI API

[\[GitHub \]](#)

- End-to-end full-stack AI web platform with secure REST APIs, JWT auth, bcrypt, and Helmet.js; automated recon, vulnerability analysis & pentest report generation. API testing and security validation performed throughout.

MedSecure — Python, AES/ECC Cryptography, Steganography

[\[GitHub \]](#)

- Research project implementing end-to-end encrypted data transmission and LSB steganography for covert embedding; produced research-grade technical documentation on healthcare data-security standards.

Firewall Simulator for Linux — Linux, Bash, iptables

[\[GitHub \]](#)

- Developed and tested rule-based packet filtering and network access control system; validated firewall configurations against simulated attack scenarios with documented test cases and security rule logic.

Malware Behaviour Analysis — Linux, Sandbox Environment, Threat Analysis

[\[GitHub \]](#)

- Systematic research into malware behaviour in isolated Linux sandboxes; monitored syscalls, processes, and network IOCs; published structured threat reports with attack vectors and mitigation recommendations.

EDUCATION

B. Tech Computer Science Engineering — Bennett University, Greater Noida

2023 – 2027 | CGPA: 7.38 / 10

Intermediate (PCM) 83.7% | High School 87.3% — Escorts World School, Kanpur

2019 – 2022

CERTIFICATIONS & ACHIEVEMENTS

Certifications: CEH — EC-Council (Feb 2026) · Data Structures and Algorithms — Infosys Springboard · Computer Networks & Network Security — Coursera · SQL with Python — Coursera · OS Power User — Coursera · OOP in C++ — Coursera · Digital Electronics — Infosys Springboard

Achievements: 2nd Place — IEEE BU Scavenger Hunt 2024 · Microsoft Innovate Hackathon 2025 · Deloitte Australia Cyber Job Simulation (Dec 2025) · FOSS BU Linux Fest & Re-Decrypt 2025 · Research: Copyright Laws & Open-Source Software
