

AYUSH DWIVEDI

Cybersecurity & Network Security Enthusiast | CEH Certified

Kanpur, UP, India | +91 7860029305 | dwivediayush503@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [TryHackMe](#) | [HackTheBox](#) | [HackerOne](#)

PROFESSIONAL SUMMARY

Cybersecurity-focused B. Tech Computer Science student with hands-on experience in network security, malware analysis, Linux systems administration, and Python scripting. Certified Ethical Hacker (CEH) with practical exposure to firewall configuration, vulnerability assessment and penetration testing (VAPT), and secure application development. Seeking internship opportunities in SOC analysis, VAPT, security operations, application security, and network defence.

TECHNICAL SKILLS

Cybersecurity: Network Security, VAPT, Vulnerability Assessment, Malware Analysis, Firewall Configuration, Ethical Hacking, SOC Operations, OWASP Top 10, Incident Response, Threat Intelligence

Security Tools: Nmap, Burp Suite, Wireshark, Metasploit, Nessus, OWASP ZAP, Splunk, Kali Linux, iptables

Programming: Python, Bash, C++, SQL

Platforms & Web: Linux (Ubuntu/Kali), Git/GitHub, React.js, Node.js, MongoDB, REST APIs

INTERNSHIP EXPERIENCE

Full-Stack Developer Intern | Webstack Academy (Remote)

Mar 2026 – Apr 2026

- Built responsive full-stack web applications using React.js, Node.js, and MongoDB with REST API integration and JWT authentication for secure, scalable solutions.

Python Developer Intern | Cognifyz Technologies (Remote)

Jan 2026 – Feb 2026

- Developed Python-based automation scripts and backend utilities for cybersecurity and data-processing tasks, applying debugging and code-optimization best practices.

IT Intern | Honda Cars India Limited, Greater Noida

Jun 2025 – Jul 2025

- Supported enterprise IT operations and security monitoring, assisting with system performance analysis and anomaly detection in a large-scale infrastructure environment.

IT Intern | Eduversity (Remote)

Oct 2023 – Nov 2023

- Identified threats and vulnerabilities in simulated network environments, performing traffic analysis and security assessments aligned with SOC analyst workflows.

PROJECTS

EthHack AI — AI-Powered Penetration Testing Assistant — Node.js, Express.js, OpenAI API, MongoDB

[GitHub](#)

- Automated reconnaissance, vulnerability analysis, and pentest report generation using OpenAI APIs; secured backend with JWT auth, bcrypt hashing, Helmet.js, and API rate limiting.

MedSecure — Secure Medical Data Transmission System — Python, Cryptography, Steganography

[GitHub](#)

- Built a secure medical data framework using AES/ECC encryption and LSB steganography for end-to-end confidentiality, meeting healthcare data security standards.

Firewall Simulator for Linux — Linux, Bash, iptables

[GitHub](#)

- Simulated a rule-based network firewall with iptables; evaluated packet-filtering policies against attack scenarios and documented perimeter defence logic.

Malware Behaviour Analysis — Linux, Cybersecurity, Threat Analysis

[GitHub](#)

- Performed behavioural malware analysis in isolated sandboxes, monitoring process and network activity to identify IOCs and produce mitigation reports.

EDUCATION

B. Tech in Computer Science Engineering, Bennett University, Greater Noida

2023 – 2027

CGPA: 7.38/10 (through 5th Semester)

Intermediate (PCM): 83.7% | High School: 87.3% — Escorts World School, Kanpur

CERTIFICATIONS

Certified Ethical Hacker (CEH), EC-Council • Ethical Hacker, Cisco Networking Academy • Introduction to Cybersecurity, Cisco Networking Academy • Computer Networks and Network Security, Coursera • Databases and SQL for Data Science, Coursera

ACHIEVEMENTS & ACTIVITIES

2nd Position, IEEE BU Scavenger Hunt (2024) • Participant, Microsoft Innovate Hackathon (2025) • Attended Linux Fest & FOSS BU Re-Decrypt Event • Completed Deloitte Australia Cyber Job Simulation
